Annual CPNI Certification
47 C.F.R. §64.2009(e)
EB Docket No. 06-36

Name of Company: Selway Group, Inc.
Form 499 Filer ID: 826030
Name of Signatory: Stephen Matlock
Title of Signatory: President

I, Stephen Matlock, hereby certify that I am an officer of Selway Group, Inc ("The Selway Group") and that I am authorized to make this certification on behalf of The Selway Group. I have personal knowledge that The Selway Group has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules, to the extent that such rules apply to The Selway Group or to any of the information obtained by The Selway Group. *See 47 C.F.R. §64.2001 et seq.*

Attached to this certification is an accompanying statement explaining The Selway Group's procedures to ensure that it complies with the requirements set forth in §64.2001 *et seq.* of the Commission's rules to the extent that such requirements apply to The Selway Group or to the information obtained by The Selway Group.

The Selway Group has not taken any actions against data brokers before state commissions, state or federal courts, or the FCC in the past year. The Selway Group has not received any customer complaints in the past year concerning the unauthorized release of CPNI. The Selway Group has no information, other than information that has been publicly reported, regarding the processes that pretexters are using to attempt to access CPNI.

Selway Group, Inc.
Statement of CPNI Procedures and Compliance

Selway Group, Inc. ("The Selway Group") provides exclusively carrier-to-carrier telecommunications and/or non-telecommunications services. None of its customers are end users of telecommunications services. It has no end user customers. Consequently, The Selway Group does not have a "subscriber" relationship with its customers and does not send "bills" to end-user customers. The Selway Group does not offer or market its services to the public or to such classes of users as to be effectively available directly to the public. The Company provides service only to other carriers exclusively through VoIP services.

The Selway Group typically does not obtain the end-user customer's billing name, address or telephone number, or any other information that relates to the quantity, technical configuration, type, or location of a specific end user customer's service.

The Selway Group may however obtain certain call detail information concerning the calls routed through its carrier-to-carrier services. Because The Selway Group provides exclusively carrier-to-carrier services, it does not use any call detail information that it obtains in the course of providing those services to attempt to market telecommunications services to the general public or any end-user customers. Moreover, the call detail information obtained by The Selway Group is not made available to end-user customers or third parties over the telephone, online, or in retail stores. However, such information may be disclosed: (a) in response to a proper subpoena, court order or other judicial process; or (b) to the transmitting or receiving carriers for billing-relating purposes.

Nonetheless, The Selway Group safeguards from improper use or disclosure by employees the call detail information that the Company obtains in providing its carrier-to-carrier services. Any access to call detail information is limited to certain employees, and those employees are trained to protect call detail information from improper use or disclosure and informed that failure to protect that information will result in appropriate disciplinary action. In addition, The Selway Group has programs and procedures in place to discover and protect against attempts by third parties to gain unauthorized access to The Selway Group computers and call detail records.

Selway did not have any breach of its call detail records during 2008. However, the Company has processes and procedures in place to maintain records of any security breaches and to notify affected carriers and law enforcement of such breaches. Selway does not possess any information with respect to the processes pretexters are using to attempt to access CPNI.
